

EMPLOYEE TRAINING RECORD		
TRAINING TITLE	Clarifiers - General Safety Hazards - 1	
KEY TEACHING POINTS		
FALLS <ul style="list-style-type: none"> Clean up scum, sludge, oil and grease on walkways. Walk. Do not run near open tanks. Avoid clutter. Pick up hoses, ropes, cables, tools, buckets and lumber and properly store them. Do not sit on, climb through or hang over guard rails or handrails. Keep gratings, deck covers, and safety chains on when around openings to pits below floor level. 		
DROWNING <ul style="list-style-type: none"> Use handrails and walkways by all open tanks. Cover open pits with grating or deck plates. Use approved life preservers and life lines to throw to anyone who may fall in. Appropriate equipment should be worn when necessary. Use the buddy system when working around or across a water surface. 		
STRAINS AND OVEREXERTION <ul style="list-style-type: none"> Use proper tools to move stuck or reluctant valves. Use proper equipment to lift heavy objects. 		
ELECTRICAL SHOCK <ul style="list-style-type: none"> Do not use water for cleaning electrical panels, electric motors, or other electrical equipment. Use rubber floor mats in front of electrical panels. Do not work on electrical equipment unless you are qualified and authorized to do so. Follow Lockout/Tagout procedures. 		
CONFINED SPACE <ul style="list-style-type: none"> Follow confined space procedures if entry is anticipated. 		
TEST		
QUESTION	ANSWERS	
	TRUE	FALSE
1. Washdown and sweep walkways regularly to prevent slips and falls.		
2. Use a buddy system when working around or across a water surface.		
3. Use more strength to free stuck valves.		
4. Do not use water to wash down electrical panels, motors and equipment.		
5. It is OK to leave hoses on the ground because they can be easily seen.
